

STEP III, 2010 Q6 EC

6. About a tenth of the candidates attempted this, with less success than nearly all other questions on the paper. Part (i) caused few problems, but at some point in part (ii), errors were frequently made or lack of attention to which of the two angles in parts (i) and (ii) was being employed in which rotation, and so even those few that knew how to attempt part (iii) were thwarted.
